AMORSO-325D

Fluorine Modified Acrylic Leveling Agent

Introduction:

AMORSO-325D is an excellent flow flat agent without silicone, which can be used in solvent-borne transparent gold oil, paint and other pigments without affecting film gloss. Especially for acrylic / polyurethane series 2 liquid coating, it has excellent leveling and defoaming effect. AMORSO-325D can also prevent crater, fish-eye, pinholes and other phenomena.

Features:

Newly developed product for the coil coating, fast leveling and good miscibility.

Technical data:

Composition: fluoroacrylic polymer

Appearance: light color liquid

Non-volatile part: 47%±2.0%

Applications:

- solvent-borne
- industrial baking paint
- plastic paint
- coil coating
- wood paint
- car paint
- car repair paint
- printing ink
- epoxy flooring
- anti-corrosion coating

Usage and dosage:

- It can be added before or after the grinding stages.
- 0.1%-1.0% of the total weight.

Package:

25KG barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
