AMORSO-391

Fluorine Modified Acrylic Leveling Agent

Introduction:

AMORSO-391 is a fluorine modified acrylic flow flat agent, which can be used in solvent-borne varnish, color paint and other kinds of coatings, it will not affect the film gloss. Especially for acrylic acid / polyurethane series 2 liquid coating, with excellent rapid leveling and defoaming effect.

Features:

fast leveling and good defoaming.

Technical data:

Composition: fluoroacrylic polymer

Appearance: light color liquid

Active substance: 100%

Solvent: /

Applications:

- anti-shrinkage hole performance
- promoted leveling
- improved substrate wetting
- does not affect interlayer adhesion
- good defoaming effects

Usage and dosage:

- It can be added in or after the grinding stages.
- 0.1%-1% of the total weight.

Package:

25KG plastic barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
