## AMORSO-472C

### Multi-function Adhesion Promoter

#### Introduction:

Suitable for inorganic metal substrate, recommended for high polarity system.

#### Features:

- new adhesion promoting agent, excellent salt spray resistance, chemical resistance
- resistance to high temperature, chemical corrosion, oil, solvent, low surface tension
- suitable for inorganic substrates, recommended for medium and high polar systems

#### Technical data:

Composition: hyperbranched polyester polymer

Solvent: alcohols

Appearance: light color liquid

Active substance: 50%±2%

#### Applications:

- industrial baking paint
- coil coating

#### Usage and dosage:

- 0.1%-1%.
- It can be added in the grinding or painting stages.

#### Package:

25KG plastic or iron barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage. ]
