AMORSO-219

Silicone-free Defoamer

Introduction:

AMORSO-219 is a kind of special polymer, which has the functions of defoaming and leveling. It has good effect on eliminating the processing bubble, breaking the bubble quickly in thick coating construction and eliminating the pinhole. Especially recommended use for primer, hand brush, roll coating, spray coating, defoaming.

Features:

- the function of defoaming and leveling
- eliminate processing bubbles
- rapidly break foam in thick-coating construction
- good effect on eliminating pinholes

Technical data:

Composition: acrylics

Appearance: light color liquid

Active substance: 100%

Applications:

- solvent-borne/UV
- industrial baking paint
- plastic paint
- wood paint
- printing ink

Usage and dosage:

0.1%-1.0% of the total amount.

Package:

25KG plastic barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
