AMORSO-227

Silicone-free Defoamer

Introduction:

AMORSO-227 is a kind of defoamer for UV system which is used in curtain coating.

Features:

- high defoaming ability, high compatibility, suitable for varnish, color paint and UV coating.
- good re-coatability, suitable for leaching construction

Technical data:

Composition: organic polymer

Appearance: light color liquid

Active substance: 100%

Solvent: /

Applications:

- industrial baking paint
- coil coating
- wood paint
- car paint

Usage and dosage:

- It can be added in the grinding or painting stages.
- 0.3%-2.0% of the total amount of the formula.

Package:

25KG plastic or iron barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
