AMORSO-1837 Modifier

Introduction:

AMORSO-1837 is a special polymer, it can react with water effectively, remove moisture and does not produce any precipitation. The reaction time is about 12-24 hours with high safety and without side effect. The effluent ratio is about 1:1.

Features:

- effectively remove moisture from resin, solvent, curing agent, no precipitation problems.
- after addition, place for 12-24 hours to fully remove moisture.

Technical data:

Composition: special high molecular polymer

Appearance: light color liquid

Active substance: 100%

Solvent: /

Applications:

- solvent-borne
- UV
- industrial baking paint
- plastic paint
- wood paint
- car paint
- car repair paint
- anti-corrosion coating

Usage and dosage:

- Add directly in post-stage, addition amount 0.3%-3%.
- Select according to different moisture level.

Package:

25KG barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
