AMORSO-1843B

Orange Texture Agent, Hammer Texture Agent

Introduction:

AMORSO-1843B is a high molecular siloxane polymer solution.

Features:

- make a variety of aluminum powder coatings produce more beautiful three-dimensional wrinkle effect with little addition
- the wrinkle pattern is meticulous and small with high addition amount, the wrinkle pattern is thicker with low addition amount
- beautiful and generous texture in spray construction and have strong sense of three-dimension

Technical data:

Composition: organosiloxane

Appearance: light color liquid

Active substance: 10%±1%

Solvent: aromatics

Applications:

- solvent-borne/water-borne
- industrial baking paint
- plastic paint
- wood paint
- coil coating

Usage and dosage:

- Addition amount 0.1%-1.5% of the total formula.
- Usually add in the last dilution stage or color adjusting stage.
- Test before use.

Package:

25KG barrel

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
