AMORSO-1893

Salt Spray Resistant, Anti-yellowing Additive, UV Absorber

Introduction:

AMORSO-1893 is a benzotriazole ultraviolet absorbent used in coating industry. It is easy to emulsify, especially suitable for water-borne and solvent-borne systems. With high temperature resistance and extraction resistance, it is suitable for automotive paint, industrial paint and other areas with high weather resistance requirements. It also provides adequate protection for light-sensitive substrates such as wood.

Features:

- obviously improve the weathering resistance of the coating. The synergism will make automotive coatings work better
- have good inhibitory effect on light loss, crack, foaming, shedding and discoloration

Technical data:

Composition: high molecular polymer

Appearance: light color liquid

Active substance: 100%

Applications:

- solvent-borne
- industrial baking paint
- plastic paint
- wood paint
- car paint
- car repair paint
- coil coating
- printing ink
- epoxy floor
- anti-corrosion coating

Usage and dosage:

- Recommended dosage is 0.5%~2% of the weight of solid part of the resin.
- Avoid contact with skin and wear eye masks to prevent eye irritation. The product should be stored in the shade and sealed after use.

Package:

25KG barrel
