AMORSO-130T

Non-organotin Catalysts

Introduction:

AMORSO-130T is a new type of organic metal drier, which contains no tin. It is a kind of eco-friendly PU accelerator, it has the function of phase transfer catalysis. It can not only improve the reaction speed of PU paint, but also have cooling effect. Compared with other metal drier, it has a long serviceable time. Avoid the problem of excessive amount of metal drier.

Technical data:

Appearance: light liquid

Non-volatile part: 45%

Usage and dosage:

Addition amount: 0.1%-1%.

Package:

180KG drum

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
