AMORSO-688

Substrate Wetting Agent and Oil Resistant Agent

Introduction:

AMORSO-688 can prevent shrinkage caused by unclean substrate, foreign contamination or insoluble matter (silicone oil, defoamer) and enhance flattening.

Features:

- fluorinated polysiloxane prevents the substrate from being unclean and enhances leveling
- have orientation for matting powder and silver powder

Technical data:

Composition: fluorosiloxane

Appearance: light color liquid

Active substance: 50%±2%

Solvent: esters

Applications:

- fluorosilicon low surface coating
- fluorosilicon antifouling coatings
- fluorosilicon lubricating grease

Usage and dosage:

Dilute with esters, alcohols or ethers before use.

Addition amount: 0.1%-0.5%.

Package:

25KG plastic or iron barrel

200KG iron drum

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage.]
