## AMORSO-1425

### Heat Transfer Release Agent (gravure)

#### Introduction:

Gravure printing, heat transfer tear fog surface separation layer, batch coverage, no-back-adhesion which is good for printing, good separation.

#### Features:

- good handfeel after printing, non-stick hand, film batch coverage is particularly good, do not peel off.
- hot rotation temperature is stable, good off-type performance.

#### Technical data:

Composition: modified wax

Appearance: light color soft solid

Non-volatile part: 21%±1%

Solvent: mixed solvent

#### Applications:

heat transfer tear surface release film

#### Usage and dosage:

- add fast dry solvent to dilute before use
- gravure printing
- AMORSO-1425 is a finished product, please add appropriate amount of diluent to print.

#### Package:

175KG iron drum

#### Attentions:

Avoid direct sunlight, store in cold places, storage temperature and stirring temperature do not exceed 45°C. The specification is validated by experiments. Please test its applicity with each requirement in use, we do not guarantee that this product is suitable for any special purpose.

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage. ]
