## AMORSO-1842

### Orange Texture Agent

#### Introduction:

AMORSO-1842 is recommended to mixed with fast dry solvent to increase viscosity and thixotropy, it is not recommended to add other silicone auxiliaries to achieve good results.

#### Features:

- with a little addition it can make various kinds of coatings to produce a more beautiful stereoscopic orange effect
- its orange grain effect is meticulous and small if the addition is high
- the orange texture effect is thicker and larger if the addition is low
- in main spray construction, nice and generous texture with a strong sense of three-dimensional

#### Technical data:

Composition: organosiloxane

Appearance: light color liquid

Non-volatile part: 6.5% ± 2%

Solvent: aromatics

#### Applications:

- solvent-borne/water-borne
- industrial baking paint
- plastic paint
- wood paint
- coil coating

#### Usage and dosage:

- Addition amount 0.8%-2.0% of the total formula.
- Test before use.

#### Package:

25KG barrel

#### Attentions:

- Adjust the solvent to quick dry.
- Do not add silicone auxiliaries.
- A little thixotropy.
- Adjust the viscosity a little higher.

[The above data and specification is only for reference, customer should do the test based on different application and requirement to see if it is appropriate and suitable for their usage. ]
